Take Part in the Minnesota Waters Sustainability Framework

In response to the Clean Water, Land and Legacy Amendment passed in 2008, the State Legislature has set out to create a framework to guide the legislature in distributing the money raised by the 3/8ths income tax. As part of that process, they are looking to get input from citizens. We own forest land and lakeshore property, we understand well what the [Minnesota Statewide Conservation and Preservation Plan](#) recommended -- incentives would help us keep undeveloped shoreline wild, restore degraded shoreline, improve septic and runoff, mitigate milfoil, and protect riparian areas. But if decision-makers do not hear from you, they will not use the money to help those who own shoreline manage it.

Take the "Minnesotans and Their Water" survey. [Be part of the discussion](#) that will determine the quality of water Minnesota leaves for our children and grandchildren.

Together we can make sure that Minnesota remains a healthy and beautiful place.

Sincerely,

Jeff Forester
