cd3systems.com

## Welcome to the CD3 Waterless Cleaning System

This is a waterless, user operated, and **entirely free** watercraft cleaning station.

### That means...

It's up to YOU to clean off your boat- Because everybody likes a clean boat.

CD3 Systems follow a simple protocol that employs the proven Best Management Practices (BMP's) of **Cleaning, Draining, Drying, and Disposing** that all boaters can easily do to keep vessels free of any AIS (Aquatic Invasive Species).

Enjoy using this CD3 System, and thanks for doing your part to stop the spread of Aquatic Invasive Species like:

Zebra Mussels

Spiny Water Flea

Eurasian Watermilfoil

**EVERYBODY LIKES A CLEAN BOAT™**

## Primary Steps

### Clean

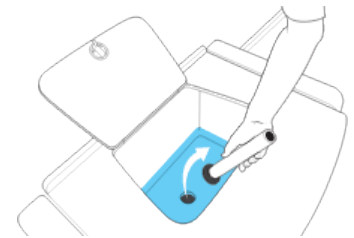

Use the provided hand tools to remove all organic matter from the watercraft and trailer.

### Drain

Remove plugs and drain livewells and ballast.

Use the provided vacuum to remove any water leftover or on deck.

### Dry

Use the provided air compressor to dry all wet parts of watercraft and trailer.

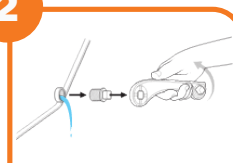

### Dispose

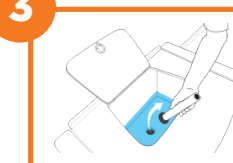

Make sure all unused bait or leftover organic material is properly disposed of in trash or compost.
